**Our ref:** CT10/24

30 July 2024

**BY EMAIL**

Dear Ms Simpson

## **APPROVAL OF PRODUCT TESTING**

Thank you for your application under the UKAS certified testing body agreement **STD/Z/PT/056** (Issue 008) for consideration of a product to be used within the MoJ Property estate.

This letter is issued to confirm that, following testing and witnessing by an approved UKAS testing body to an agreed standard, the item listed below is considered to comply with the comparative testing based on specification **STD/X/SPEC/063** *Testing Process for Fixed Furniture Intended for Use in Cells (Including Safer Cells)* (Issue 005).

You may use this letter in your dealings with any contractor or consultant involved in project work on behalf of the Property Directorate and its client departments. Please note that the subject of this letter extends only to the specific product and support documents listed below. Installation, removal or replacement methods are excluded and can be formalised under separate cover.

- Report Document: **33350 Safer Cell** (Rev C) by Contour Heating Products Ltd  
*Test Report for use of Deepclean Extra Radiator Cover for Safer Cells*  
(Issue date: 25th June 2024)
- Drawing Numbers: **Contour DCE+HMP01** (Rev C)  
*33350 Safer Cell*  
(Sheet Numbers 1-6; Issue date: 25th June 2024)
- Product Type: **DeepClean Extra Anti-Ligature Radiator Guard - DCE+HMP01**

We confirm that the product referenced above is considered satisfactory, in relation to the testing specification, by the MoJ Property Directorate Technical Standards for use in prisons.

---

Your company must not imply to third parties that Contour Heating Products Ltd is an approved manufacturer, that other products have been assessed by the MoJ Property Directorate or that this letter extends to them.

The product and documents listed, along with test photos, videos and any other documents exchanged in relation will be retained as proof of the construction of the approved products.

The compliancy relates to the tested product only; the site-specific fixing method which installers must strictly follow to provide a compliant installation are not covered by this letter.

MoJ Property Directorate reserves the right to rescind this letter where it considers there have been changes made to the method of manufacture, the design, or materials used, from that tested product, that might affect its performance.

May I take this opportunity to thank you for your interest in continuous improvement of products intended for the custodial sector and the support provided in product research and development in this field.

Yours sincerely

A handwritten signature in black ink, appearing to read 'R. Mansell', is positioned to the left of the large 'C' logo.
